---

**PUBLIC NOTICE**

On October 22, 2012, TELEGUAM HOLDINGS LLC [GTA] filed notice with the Guam Public Utilities Commission [PUC] under 12 GCA §12106 of its intent to reintroduce a tariff under GTA General Exchange Tariff No. 1 for a promotional offering for customers who subscribe to Spyder Broadband Services with limited voice services [Tariff Transmittal No. 21]. For the period of November 21, 2012, through February 18, 2013, CAP Line Service will be offered to Residential or Business Subscribers in all exchanges where technically available. With this service, a Subscriber who subscribes to Spyder Broadband Services will receive an Emergency line that provides a residential one-party access line with certain limitations. Under the promotional tariff, such customers will have access to E911 and 611 [GTA Repair Center].

During the promotional period all applicable nonrecurring rates will be charged and the promotional monthly rate will be \$1.00 per line. PUC will examine the tariff and will welcome public comments regarding whether the tariff should be suspended in whole or part pursuant to 12 GCA §12016[e] pending an investigation concerning the lawfulness thereof.

GTA's Promotional Tariff is available for public inspection at PUC's office at Suite 207 GCIC Building, Hagatna and on PUC's website at [guampuc.com](http://guampuc.com). Public Comments regarding the tariff should be filed with PUC on or before November 19, 2012. A Public Hearing will be conducted on this tariff on November 20, 2012, at Suite 202 GCIC Building, Hagatna, at 7:00 p.m., at which time members of the public or interested parties will be provided with an opportunity to comment on the tariff.

Questions regard this notice may be referred to PUC's administrator Ms. Lou Palomo at 472-1907.
