

BEFORE THE GUAM PUBLIC UTILITIES COMMISSION

IN THE MATTER OF:)
TELEGUAM HOLDINGS LLC,) GTA DOCKET 13-02
GENERAL EXCHANGE TARIFF NO. 1,)
TARIFF TRANSMITTAL NO. 24)

PUBLIC NOTICE

On June 27, 2013, TELEGUAM HOLDINGS LLC [GTA] filed notice with the Guam Public Utilities Commission [PUC] under 12 GCA §12106 of its intent to introduce a tariff under GTA General Exchange Tariff No. 1 for “Emergency Line Service.”

Emergency Line Service is a limited local exchange service that is bundled with GTA Internet Service. The Emergency line allows subscribers to originate local calls only to E911 calls, 511, and calls to the GTA repair center. Emergency lines have unlimited incoming local and toll calls included. 1+800 calls may also be originated on an Emergency Line. Subscribers must purchase a GTA internet service of at least five (5) Mbps to qualify for an Emergency Line. Emergency Line is not a standalone service.

The applicable rates to be charged for Emergency Line Service are as follows:

	Recurring*	Nonrecurring*
Residential	\$7.00	\$7.50
Business	\$24.00	\$15.00

*Rates do not include the rate for GTA Internet Service

PUC authorization for “Emergency Line Service” would establish a permanent tariff for a service previously offered by GTA as a “promotional offering”. On four separate occasions, and most recently for the period of April 7, 2013, through July 31, 2013, GTA offered a “promotional offering” to customers who subscribed to Spyder Broadband Services. Under such offering, GTA provided customers with a CAP Emergency Line providing a residential one-party access line with certain limitations. GTA’s present application essentially seeks to make the “promotional offering” service previously provided to customers a permanent tariff known as “Emergency Line Service.”

PUC will examine the tariff and will welcome public comments regarding whether the tariff should be suspended in whole or part pursuant to 12 GCA §12016[e] pending an investigation concerning the lawfulness thereof.

GTA’s Emergency Line Service Tariff is available for public inspection at PUC’s office at Suite 207 GCIC Building, Hagatna and on PUC’s website at www.guampuc.com. Public Comments regarding the tariff should be filed with PUC on or before July 29, 2013. A Public Hearing will be conducted on this tariff on July 30, 2013, at Suite 202 GCIC Building, Hagatna, at 7:00 p.m., at which time members of the public or interested parties will be provided with an opportunity to comment on the tariff.

Questions regard this notice may be referred to PUC’s administrator Ms. Lou Palomo at 472-1907.
