

BEFORE THE GUAM PUBLIC UTILITIES COMMISSION

APPLICATION OF IT&E OVERSEAS, INC.
FOR CERTIFICATE OF AUTHORITY
UNDER 12 GCA 12103

DOCKET 06-7

CERTIFICATE OF AUTHORITY

On July 14, 2006 IT&E Overseas, Inc. [ITE], which is corporation licensed and authorized to do business within the Territory of Guam, filed an application with the Guam Public Utilities Commission [PUC] for issuance of a certificate of authority under 12 GCA 12103 to provide resold local exchange telecommunications services and facilities based local telecommunications services. The application, with supporting documentation, underwent review by PUC's independent consultant [Georgetown], who reported that ITE had satisfied the standards set forth in 12 GCA 12103[c] and should, therefore, be issued a certificate, subject to the condition that it files and PUC approves its tariff for these certificated services in accordance with 12 GCA 12106.

After careful review of the application, the Georgetown report and the record in this docket, which contains ITE's certificate of public notice of its application in accordance with section three of PUC's Certification Rules and for good cause shown, **IT IS HEREBY ORDERED THAT:**

1. PUC hereby issues to IT&E Overseas, Inc. a certificate of authority to provide resold and facilities based local exchange services within the Territory of Guam; provided, however, that no such service shall be provided until ITE files and obtains PUC approval of its tariff for said services.
2. This certificate of authority is subject to the terms, conditions and requirements of 12 GCA 12103 and to all PUC rules, regulations and orders.
3. All rulings made by PUC's administrative law judge in this docket are ratified and confirmed.

Dated this 28th day of September 2006.

A handwritten signature in black ink, appearing to read "T. Brooks".
