**INTRODUCTION**

1. This matter comes before the Guam Public Utilities Commission [“PUC”] upon the Petition of the Guam Power Authority [“GPA”] for Approval of a Three-Month Extension to the Contract for Residual Fuel Oil No. 6 for the Baseload Power Generating Plants.<sup>1</sup>

**BACKGROUND**

2. GPA’s current contract for Residual Fuel Oil (RFO) with Hyundai Corporation will expire on August 31, 2018.<sup>2</sup> On October 26, 2017, the PUC authorized GPA to issue a procurement for a new contract for Residual Fuel Oil No. 6 for the Baseload Generating Plants.<sup>3</sup>
3. GPA has released an Invitation for Bid for the Supply of Residual Fuel Oil No. 6 as approved by the Consolidated Commission on Utilities in accordance with the PUC Order in GPA Docket 18-01.<sup>4</sup>
4. GPA indicates that the new IFB for the procurement of Residual Fuel Oil No. 6 for the Baseload Plants under IFB GPA-019-18, will be for a base period of two (2) years, commencing on or about September 1, 2018 through August 31, 2020, with three (3) additional 1-year extension options.<sup>5</sup>

<sup>5</sup> Id. at p. 1.

5. GPA anticipates that the contract for Supply of Residual Fuel Oil No. 6 will be awarded by August, 2018; however, GPA believes that it needs to provide an adequate mobilization period for the new supplier, particularly if the supplier is one other than the existing supplier.<sup>6</sup>
6. Both GPA and Hyundai have negotiated and agreed to a three-month extension up to November 30, 2018, under the same contract terms and conditions.<sup>7</sup>
7. GPA and Hyundai Corporation have signed Contract Amendment No. 4, which would extend the present contract for an additional three-month period, through November 30, 2018. The proposed Amendment indicates that it is subject to the approval of the PUC.<sup>8</sup>
8. GPA management believes that the extension is reasonable, in the best interest of GPA and its customers, and necessary to allow for adequate transition to the new fuel supplier.<sup>9</sup>
9. The estimated total cost for the three (3) month extension is approximately \$36M and will be funded under the fuel revenue funds.<sup>10</sup> GPA has confirmed that the three-month extension will not be necessary if the present fuel supplier Hyundai is selected through the IFB process.<sup>11</sup>

### DETERMINATIONS

10. The only issue presented herein is whether it is legal and appropriate for GPA to extend its existing Contract for Residual Fuel Oil No. 6 for an additional three-month period.

and Hyundai broadly provides that the Contract may be amended upon an instrument in writing signed by the party against whom the enforcement of the amendment is sought. Here both parties have signed the Amendment.<sup>12</sup>

12. The provision appears to give the parties broad latitude to amend the contract, as long as the amendment has been agreed to by the parties.
13. While generally GPA should not use contract amendment power to extend contractual terms established by procurements, the PUC recently allowed GPA and Marianas Energy Corporation to enter into a 5-year extension of the Energy Conversion Agreement for the Piti 8 & 9 Plants. The PUC determined that the extension of the existing ECA will help to ensure the continued operation, management and reliability of the Piti 8 & 9 plants.<sup>13</sup>
14. Here, as was the case with the ECA for Piti 8 & 9, the contract authorizes broad amendment powers on the part of the parties.
15. Unlike the situation with regard to Piti 8 & 9, the instant contract extension is only for a short three-month period. GPA has presented a reasonable justification to extend the contract for three months in order to ensure a smooth transition from the old supplier to a new supplier, and that there is sufficient time for mobilization by the new supplier.
16. In light of the broad amendment power granted to the parties under the agreement, and the Commission's longstanding view that it does not function as a procurement board, GPA should not be prohibited from amending the agreement.
17. The three-month contract extension for the contract between GPA and Hyundai Corporation for Residual Fuel Oil No. 6 for the Baseload Power Plants is reasonable, prudent and necessary. Residual Fuel Oil is essential to the operation of the Cabras power plants.

### ORDERING PROVISIONS

Upon consideration of the record herein, the Petition of GPA, the PUC Legal Counsel Report, and for good cause shown, on motion duly made, seconded and carried by the affirmative vote of the undersigned Commissioners, the Commission hereby **ORDERS** that:

1. GPA's request to extend the current fuel supply contract for Residual Fuel Oil No. 6 for the Baseload Power Plants with Hyundai Corporation, for three months, is approved.
2. The Contract may be extended from September 1, 2018, to November 30, 2018.
3. GPA is ordered to pay the Commission's regulatory fees and expenses, including, without limitation, consulting and counsel fees and the fees and expenses of conducting the hearing proceedings. Assessment of PUC's regulatory fees and expenses is authorized pursuant to 12 GCA §§12103(b) and 12125(b), and Rule 40 of the Rules of Practice and Procedure before the Public Utilities Commission.

Dated this 26th day of June, 2018.
