

JFK's Santos takes softball MVP

GSPN

John F. Kennedy Islanders catcher Tommie-Lyn Santos was selected as the league MVP for the 2024 ISA Girls Softball League season to lead the All-Island list.

"I couldn't be prouder of Tommie. Her exceptional performance as a catcher has earned her the well-deserved title of league MVP. She sets the bar high for all softball players in the league, pushing them to bring their best game," head coach Olivia Iriarte said of Santos.

The head coach said Santos' skills and dedication are "unmatched," and

she continues to inspire her teammates and opponents alike.

"Congratulations to her on this outstanding achievement," Iriarte said.

Coach Marissa Maratita-Mantanane of the Cougars also said Santos is "the spear" that led JFK to Academy's only loss this

season.

"She's a standout and I knew she was going to be a star," Maratita-Mantanane said.

Coaches for the Tiyan Titans and Sanchez Sharks were not present for the All-Island meeting to nominate their girls. Although a nomination for both the teams players were brought up mid-way into the voting, none of the girls were selected due to no-shows on the coaches' part.

PUBLIC NOTICE

In approximately three months, OR on or about June 3, 2024, GWA shall submit a Petition to the Guam Public Utilities Commission (PUC) requesting for the PUC's approval to change and increase customer water and sewer rates. If approved, the new rate(s) will take effect no earlier than the start of fiscal year 2025 (or by October 1, 2024) and may cover a full five-year period from FY2025 - FY2029. On March 4, 2024, GWA received approval from the Consolidated Commission on Utilities to file these proposed rate changes to the PUC by receiving approval on GWA's Five-Year Financial Plan and Capital Improvement Program for FY2025 - FY2029. The current rates, proposed rates, and resulting amounts of increases are presented in the table below. The proposed increases are necessary to continue GWA's capital improvement program as outlined in its 2018 Water Resources Master Plan and will make improvements to our water and wastewater system and services provided to our customers. The proposed rates will also address near-term regulatory compliance priorities which include projects required by federal law, the US EPA, and the US federal court as ordered in GWA's 2011 federal Stipulated Order and as contemplated in a filed 2024 federal Partial Consent Decree. More information and an advanced copy of the 5-year Plan will first be available on March 15, 2024 on GWA's website - www.guamwaterworks.org.
